

Teacher _____

_____:
The Best Planet in the Solar System
Script/Storyboard

by _____ and _____

Instructions: Use this form to organize the information you collected using the **Best Planet in the Solar System Notes** and the **Planets Comparison Table**. Start by numbering the facts in the **Notes** page in the order you want to present them in your Photostory – there is space next to the left on each fact so you can do this. You want to convince NASA why they should explore this planet more than any other planet so write your script using descriptive words and in a persuasive manner. Remember to address issues about your planet that might make it difficult to explore (ex. very far, very hot/cold) and despite or maybe because of these reasons, why NASA should still explore this planet.
