Abortion is evil. China is an evil country. In the long run they will end up killing off them selves. Either that or they will have to invade other countries for women.

@citizenlizard Since Muslims believe in large families-get ready for their takeover of our politics in the next 50 years.But then again,my fellow selfish,materialistic Americans that need huge houses with no kids in them, and two jobs to pay for the huge houses--I guess that's what we deserve.All those babies we have killed could now be tax payers,along with all their children.Instead we are broke and going to end up under Sharia Law-we earned it.

@citizenlizard Aside from all the mismanagement by the government-The reason why SS is broke is because it was based on collecting from an expanding population. Once Americans selfishly decided that their own convenience and material possessions were more important than anything else-they started having only one or two kids.There is no way to support SS with the current rates of reproductively since our immigration policy has most immigrants working off the books instead of paying taxes.
