### 1. Have you used the wiki for article discussion?

Yes	4	100%
No	0	0%
<b>Total</b>	<b>4</b>	<b>100%</b>

### 2. If you have used the wiki, what do you like the most about the wiki.

4 Responses

### 3. If you have used the wiki, what do you like least about the wiki?

3 Responses

### 4. What would you rather do?

I would like to have a meeting to discuss articles and turn in minutes to the principal.	0	0%
I would like to discuss articles on the wiki and allow the principal to print the discussion for documentation.	4	100%

2. If you have used the wiki, what do you like the most about the wiki.

Respondent #

Response

- 1 Seeing the discussion from people I don't always get to talk about such topics. It gives me a greater respect for my peers and their point of view.
- 2 I think that it is an easy format to have discussion with others. Saves time...can do it night or day.
- 3 There are numerous advantages to using a wiki. The most important to me is that it is a time-saver! The wiki keeps our professional articles in one place - no more hunting for them or making paper copies. I also like that we are able to read the article on our own time and then discuss it at a convenient time instead of trying to find time for 6 people to find a common time for one more meeting. It's a great tool!
- 4 being able to have conversations or see others feedback online and not having to do it in person all the time

3. If you have used the wiki, what do you like least about the wiki?

Respondent #

Response

- 1 None
- 2 Do not have a problem with it.
- 3 The least likeable thing about the wiki is the same as it is with any written media - the lack of face to face discussion and the inability to make a point quickly.
