Google docs is a Web 2.0 tool creating a stir in education. Using Google Docs, teachers h

"Google docs is a wonderful tool for any technology user. It eliminates the need to c
access. Documents can be uploaded and downloaded as a Word Document, text dc
without the need to email documents back and forth using the storage space of som

The positive attitudes towards Google Docs continue as Andrea Harper stated,

"I have never used or looked into Google Docs. This is very interesting. Creating "V
for flash drives, as Kim posted earlier. Knowing that I can create and work on assig
and allows me to work anywhere there is internet connection. The one thing that I a
Google Docs I have to choose "spell check" from the Tools tab."

Even more teachers commented positively as Kristie Gibson said,

"I have also never used a google document but I think that it would be a wonderful to
my personal computer. If these are created on my computer I have to be sure to sav
of google documents I will no longer have this issue. I had a problem just this year b
documents from my home computer to school. This problem will be solved if you can
documents from any computer as long as I had an Internet connection."

Based on the comments from the teachers surveyed, Google Docs would be a great
own oraanization and for oraanizina student work. Google Docs appear to be an up a
