### Ward's favorite Tools

posted 2 hours ago by Kim Ward

I really enjoy using many internet tools. One I would like to use as a teacher and with student create their own word search, crossword puzzle, and more. As assignments are differentiated instruction and create a puzzle can be one of the options. Not to mention many students feel a sense of pride and accomplishment when they finish and print.

Kim

its is [Discovery Education Puzzle Maker](http://puzzlemaker.discoveryeducation.com/) at <http://puzzlemaker.discoveryeducation.com/>. Students or teachers can for different learning styles this type of internet tools is valuable. Students often have choice boards as part of y children enjoy creating things with technology and it looks professional when it is printed rather than hand written.
