Assure Lesson Plan Behavioral Objective

Given a Powerpoint presentation and Online activity on Comparative and Superlative adjectives, the elementary school student, will be able to identify the correct adjective to describe a picture 95% of the time.

Audience : Elementary school student
Behavior: Identify the correct adjective
Conditions: Powerpoint presentation and Online activity (This is how learning will occur)
Degree: 95% of the time (I determined it would be 90 percent because this is an initial lesson. After subsequent lessons percent accuracy will go up to 100%.
