### Gepeto Software: Fantastic Teacher Tools for All Subjects and Ages

In choosing an educational tool or website to recommend for teachers, I can whole-heartedly and without reservation recommend the suite of educational tools found at <http://www.gepetosoftware.com/>. The programs found at Gepeto Software's website were written by a teacher and are customizable to work with nearly any subject or grade level. Used in schools around the world, the programs are a favorite of both learners and teachers.

Of particular interest are the suite of vocabulary learning tools (ActivityMaker, Vocab Arcade, and Web ActivityMaker) which provide engaging ways for both young and adult learners to master vocabulary for any subject.
