

SlideShare in an Educational Setting

Lindsey Aason
Kristen Honaker
Kristin Limbaugh

Features of SlideShare

- Easy way to collaborate on presentations and share ideas
- Perfect for a distance learning situation
- Easy access to social networking tools
- Can share presentations/information without clogging up e-mail boxes
- Has the capability to embed slideshows onto a website or blog

SlideShare in Education

- Teachers can embed their classroom presentations on their website or blog for student access at home
- Teachers can share lesson plans and teaching ideas with their grade level teams
- Students can collaborate with one another from a distance
- Students can share work with each other and receive feedback from the teacher

Other perks for using SlideShare

- Teacher could record their voice for the slide show on a lesson that was taught, and could be available for students to listen to again to take notes, and helpful for ESOL students to view and listen to again.
- People teaching educational workshops could post a slideshow video of information and activities covered for the teacher to refer back to.

Other perks continued...

- Teacher could make the slideshow interactive and have the students play a review game and then the students would be able to play the game at home to help review for the upcoming test.
