

Reflection on MEDT 7468 Kiosk Project & MEDT 7470 Video Project 3

This project covered the following standards:

- NETS 3C: Communicate relevant information and ideas effectively to students, parents, and peers using a variety of digital-age media and formats.
- COE Conceptual Framework 2: Leaders: Candidates should be able to demonstrate effective leadership skills to initiate and facilitate transformational systemic change.

For the kiosk project, I created an announcement video informing citizens that our school system was hosting from computer classes at my school. We do actually do this 3 times a year. It gave me experience with adding audio and video to a PowerPoint and also gave me ideas of how my students could just PowerPoint in the classroom. Video Project 3 was very similar in that I created a promotional video for my daughter's elementary school that advertised the different extra curricular activities that are available to the students. I used video footage I shot as well as Movie Maker to produce this video. It was challenging and fun. It gave me great ideas about having students create similar projects.
