

Reflection on MEDT 7470 Video Project 2, MEDT 7466 Digital Storytelling Project, & EDRS Annotated Bibliography

This project covered the following standards:

- NETS 4A: Advocate, model, and teach safe, legal, and ethical use of digital information and technology, including respect for copyright, intellectual property, and the appropriate documentation of sources.
- COE Conceptual Framework 8: Knowledgeable: Candidates should be able to demonstrate general knowledge inherent in a liberal arts curriculum, advanced knowledge in content areas, and specific knowledge in professional education for the implementation of transformational systemic change.

For both my video project 2 and my digital storytelling project I had to locate resources such as music, sound effects, video clips, pictures, etc. All sources are accurately given credit at the end of each project. In addition, my annotated bibliography from my research class demonstrates the proper way to give credit to sources in APA format.
