Reflection on MEDT 7461 SMART Notebook Module (Lesson Activity Toolkit)

This project covered the following standards:

- NETS 5B: Exhibit leadership by demonstrating a vision of technology infusion, participating in shared decision making and community building, and developing the leadership and technology skills of others

- COE Conceptual Framework 1 and 2: Decision Makers: Candidates should be able to demonstrate knowledge and skills when making decisions that will influence effective transformational systemic change. Leaders: Candidates should be able to demonstrate effective leadership skills to initiate and facilitate transformational systemic change

For this project, I worked with my partners to create a wiki that teachers could use to become familiar with the basics of the SMART Board and SMART Notebook. We basically created on online in-service of lesson activity toolkit. The wiki included sections for tutorials, handouts, lesson examples, resources, standards, guiding questions and planning steps, a place to share thoughts, and a place to evaluate the module.
