Using SlideShare in an Instructional Setting

Lita Brown
Kaia Alderson
Tonia Conner

Student Work

Students can collaborate on assignments without being dependent on physical proximity.

Develop Visual Literacy

Students can analyze other presentations posted on SlideShare to determine which visual elements were effective.

Missed Classes & Reviews

Teachers can post presentations covered in class to SlideShare where students who missed class or who want to review can access them.

In-Service Presentations

- Faculty Meetings
- PTSA Meetings
- Classroom Presentations
- Other "dog and pony shows"

Ease of Use

- SlideShare supports many different file formats:
  - PowerPoint,
  - .pdf,
  - videos,
  - import from Google Docs
- Share your slides on blogs, Twitter, Facebook or LinkedIn.

Improved Communication

- Administrators can use it keep up with what standards and curriculum are being covered at any
  given time in their teachers' classes.
- Parents can easily view SlideShare presentations
  to find out what is going on in their child's classes,
  what work needs to be done, and other important
  dates and information.

FREE Resouce for Teachers & Students

SlideShare is yet another Web 2.0 resource that is FREE for all to use. With school budgets being as minimal as they are today, we have to be more resourceful. Money that's not wasted on unnecessary software can be used to purchase more technology tools.
